CAREER OBJECTIVES

Computer Engineering graduate seeking an entry-level position where I can apply my technical, analytical, and problem-solving skills while contributing to engineering, operations, and data-driven initiatives.

EXPERIENCE

Schneider Electric

Test and Equipment Technician Intern

PEZA Rosario

April 2026 - June 2026

- Maintained and updated machine documentation to ensure accurate and organized records
- Verified production machine inventory and information to maintain accurate asset information
- Supported equipment audits by collecting, validating and updating machine data records

EDUCATION

San Sebastian College Recoletos de Cavite

Bachelor of Science in Computer Engineering

Cavite City
2026

- Dean's Lister (2023-2026)
- Best Innovative Design (Group); Best in Design Project (Group)

STI College Rosario

Senior High School, ICT in Mobile Application and Web Development

Rosario, Cavite
2022

- Graduated with High Honors

ACADEMIC PROJECTS

Lumina Alert - AI-driven Drowsiness Detection System (Thesis Prototype)

December 2025

- Developed the admin web interface and technical documentation for system management
- Assisted in hardware-software integration and prepared YOLOv11n datasets to support AI model performance
- Conducted system testing and troubleshooting to validate overall system performance

IoT-Based Smart Irrigation System

July 2025

- Developed a mobile app prototype using MIT App Inventor for remote irrigation monitoring and control
- Integrated soil moisture data for real-time monitoring and automated pump operation
- Performed system testing and troubleshooting to ensure reliable hardware-software communication

Laboratory Inventory Management System

March 2025

- Developed a web-based inventory system using HTML, CSS, JavaScript, and Firebase
- Implemented CRUD functionalities for efficient inventory management
- Tested application features and validated stored data to improve system reliability and user experience

SKILLS

- Programming Languages: Java, JavaScript, Python, PHP, C/C++
- Web & Database Technologies: HTML5, CSS3, ReactJS, JavaScript, Firebase, Basic SQL
- Software & Productivity Tools: Microsoft Office, Google Workspace, Visual Studio Code, Git, Figma, AutoCAD
- AI Tools: ChatGPT, Gemini, Perplexity, Claude
- Technical: Documentation, Troubleshooting, Software Testing, Data Management and Validation
- Professional: Adaptability, Problem-solving, Organization, Troubleshooting, Communication, Team Collaboration, Active Listening, Attention to Detail, Continuous Learning
